ELIAS TAKLE

Full-Stack Developer | Data Science & AI

takleelias07@gmail.com | +251 931 214 600 | Addis Ababa, Ethiopia | LinkedIn GitHub Portfolio LeetCode

PROFESSIONAL SUMMARY

Self-taught full-stack developer and mechanical engineering student who builds complete products, from offline desktop systems to modern web storefronts. Trained at Evangadi Networks, earned honors in a University of Tokyo data science course, and is now going deep on agentic AI and retrieval-augmented generation. Fluent in Python, JavaScript and TypeScript, with a consistent habit of learning new tools and shipping with them.

EDUCATION

Bachelor of Science in Mechanical Engineering

Addis Ababa University, College of Technology and Built Environment

- Self-taught developer who writes Python fluently. Strong in data structures and object-oriented programming; solved 10+ LeetCode problems.

PROFESSIONAL EXPERIENCE

Full Stack Web Development Trainee

Evangadi Networks

- Completed an intensive full-stack program covering front-end, back-end and database development.
- Built web applications with React, Node.js, Express and SQL, including authentication and REST APIs.
- Worked in Git and GitHub workflows and delivered projects from idea to working product.

PROJECTS

Pharmacy WMS

Desktop warehouse management system for a pharmacy wholesale business

- Built a system covering purchasing, inventory, sales, suppliers, customers and reports.
- Delivered accurate stock, expiry and credit tracking on a single computer, with no internet connection required.

Aurelle Fragrances

Fragrance storefront with a clean, editorial design

- Designed and built an online store for browsing and shopping perfumes.
- Gave shoppers a calm, fast way to discover fragrances, compare options and keep the ones they like.

Netflix Clone

Front-end recreation of the Netflix browsing experience

- Rebuilt a streaming-style interface to master complex, media-rich layouts, working through layout and navigation end to end.

CERTIFICATIONS & AWARDS

Certificate of Honor – GCI World

Matsuo-Iwasawa Laboratory, Graduate School of Engineering, The University of Tokyo

Awarded honors for excellence in the final assessment of a course on the fundamental theories and implementations of data science.

Certificate of Completion – GCI World

Matsuo-Iwasawa Laboratory, Graduate School of Engineering, The University of Tokyo

Successfully completed the data science course and passed its final assessment.

AI & Career Empowerment Program

University of Maryland, Robert H. Smith School of Business (non-credit) — applied AI in business and professional development

SKILLS

Languages: Python, JavaScript, TypeScript, SQL, HTML

Frameworks & Libraries: React, Next.js, Tailwind CSS, Node.js, Express, Django, Tauri

Tools: Git, GitHub, Docker

Foundations: Data Structures, Object-Oriented Programming, Problem Solving

CURRENTLY LEARNING

Agentic AI (ReAct and plan-and-execute patterns, tool calling and function schemas, short- and long-term memory), multi-agent orchestration (LangGraph, CrewAI), RAG and vector databases (Pinecone), fine-tuning vs LoRA/QLoRA, and MCP.
